# BY RACETRACK COLLATORS

## A PRODUCT COLLATING SOLUTION TO MEET YOUR SPECIFIC REQUIREMENTS:

### Technical characteristics

- Various collation systems for controlling the infeed of products at random: vertical collators, horizontal collators, single axis, dual axis, with chains or belts, etc.
- Pockets are specifically designed to accommodate and protect the products
- Indexing system to ensure that the pockets are accurately positioned at each phase

### Advantages

- Products are isolated to eliminate accumulation constraints
- Sub-assembly adaptable to any case packing system (RSC or wrap around)
- Mechanically reliable and robust solution

### Performance

- Servo motors
- Very low noise level
- Speed: up to 500 products per minute
- Quick size changeovers

- Handling of products that are difficult to accumulate
- Optimum product protection
- High speed

Sidel is a leading provider of equipment and services solutions for packaging beverage, food, home and personal care products in PET, can, glass and other materials.

With over 40,000 machines installed in more than 190 countries, we have nearly 170 years of proven experience, with a strong focus on the factory of tomorrow with advanced systems, line engineering and innovation. Our 5,500+ employees worldwide are passionate about providing solutions that fulfil customer needs and boost the **performance** of their lines, products and businesses.

Delivering this level of performance requires that we stay flexible. We continuously ensure we **understand** our customers' changing challenges and commit to meeting their unique performance and sustainability goals. We do this through dialogue and by understanding the needs of their markets, production and value chains. In turn, we apply our solid technical knowledge and smart data analytics to ensure lifetime productivity reaches its full potential.

We call it **Performance through Understanding**.
