SOLUTION FOR SIDE LOADING, ROBOT PALLETIZING RSC AND/OR WRAP AROUND CASES

A COMBINED SOLUTION FOR SIDE-LOADING CASE PACKING AND PALLETIZATION TO MEET YOUR SPECIFIC REQUIREMENTS:

Technical characteristics

Case forming, loading, sealing

- Patented case extraction system
- Case magazine height lowered to 850mm to improve blank handling by the operator
- Ability, within the same footprint, to seal cases with glue or tape
- Collating system adapted to the nature, shape and rigidity of the product

Palletization

- Labeling, control and palletization carried out by a 6-axis robot
- Continuous operation without disrupting the line upstream during pallet changeover thanks to a buffer zone
- Outfeed of the full pallet in total safety thanks to software stops managed by the robot's dual core processor
- Single control interface for all the machines

- Case forming, side loading, sealing, labeling and palletization combined in a compact unit
- Reduced footprint: 13 m²
- Easily accessible machine
- Casing of the lower parts to avoid product retention

Sidel is a leading provider of equipment and services solutions for packaging beverage, food, home and personal care products in PET, can, glass and other materials.

With over 40,000 machines installed in more than 190 countries, we have nearly 170 years of proven experience, with a strong focus on the factory of tomorrow with advanced systems, line engineering and innovation. Our 5,500+ employees worldwide are passionate about providing solutions that fulfil customer needs and boost the **performance** of their lines, products and businesses.

Delivering this level of performance requires that we stay flexible. We continuously ensure we **understand** our customers' changing challenges and commit to meeting their unique performance and sustainability goals. We do this through dialogue and by understanding the needs of their markets, production and value chains. In turn, we apply our solid technical knowledge and smart data analytics to ensure lifetime productivity reaches its full potential.

We call it **Performance through Understanding**.
